

**WARNING & HAZARD**

# LED BEACON Class I

Permanent Mount, Vacuum Mount

►► NOW AVAILABLE!

**FEATURES & BENEFITS**

- 12 different selectable flash patterns in either of two phases, plus steady-on
- Extremely low current draw; Circuit board is conformal coated to protect circuitry
- Durable polycarbonate twist on/off lens
- S-Link™ System\* synchronizing capabilities with up to six other units (for hardware models only). Allows for synchronization with other S-Link compatible products
- Durable, lightweight polycarbonate base, flange 3-hole permanent mount, 1" pipe mount, vacuum magnet mount with cig. plug (on/off and pattern select switch)
- 5 year warranty

**PERMANENT MOUNT**

**Voltage:** 12 to 24 VDC

**Amp Draw:** 0.5 amps @ 12 VDC

**VACUUM MAGNET**

**Voltage:** 12 VDC

**Amp Draw:** 0.5 amps @ 12 VDC

APPROVALS: SAE J845 CLASS I ● AMBER ○ WHITE ● RED SAE J845 CLASS II ● BLUE NOT SAE APPROVED ● GREEN

**\*S-LINK TECHNOLOGY:** S-Link System is a proprietary technology that will allow similar S-Link products to be synchronized. This would allow for a user to define the flash patterns on multiple devices for a customized, tailored look on a vehicle. Note: Only S-Link compatible products can be synchronized together. Refer to user installation manuals for details on S-Link Synchronization.
