## ***LED Universal and Vehicle-Specific Multi-Function Combination Box Lamps***

VSM's rear multi-function LED box lamps cover a wide variety of universal and vehicle-specific applications. These combination lamps, in most cases, include stop/tail/turn and reverse lamp functionality and are available with DIY wiring with and without ring terminals, or with vehicle-specific connectors like popular right and left-hand side Metri-Pack plugs. Options include lamps for manufacturers Peterbilt, GM, Mack, Volvo, Freightliner, Navistar, and more with two and three-bolt mounting patterns. Learn more about our individual lamps and lamp kits below and feel free to [contact us](#) if you have any questions or require a customized solution.

### **Product Features**

- All functions utilize Super Flux LED technology
- Attractive multiple diode design
- Gasket between lens and housing protects against moisture intrusion
- Epoxy encapsulated electronics for protection against moisture, vibration and corrosion
- Contains 16 S/T/T diodes, 18 back-up diodes and 4 license illuminator diodes
- Mounting Hardware included
- Polycarbonate housing / Acrylic lens
- Voltage 12-13.5 Volts

Don't forget VSM also supplies direct replacement Metri-Pack wire harnesses to keep your connections safe, secure, and in good working condition, and replacement lenses. [Click here](#) to view available harnesses and lenses.
