Universal Heavy-Duty Turn Signal Switches

VSM's turn signal switches feature modular plug-in harnesses that allow OEM replacements without rewiring for virtually every heavy duty vehicle make. They are highly reliable, having survived over one million cycles and proven cost effective under actual driving tests.

- ✓ Exceeds Class A, SAE, QQC, and FMVSS108 specs
- ✓ Heavy duty unitized construction
- ✓ Positive detent for better "driver feel" when signaling
- ✓ Integrated stop lamp circuitry

Part Number: **999282**

Product Specifications

OEM Engineered signal switch for all applications.

Control switch mounts to steering column with included column clamp.

Column clamp fits up to 2.375" steering columns.

Allows for conversion from floor-mounted dimmer to lift handle dimmer.

Note: Flasher and flasher connector are not supplied with universal turn signal switch 900. Use VSM connector [9186](#) with flasher part numbers [557](#) or [254](#) for maximum performance.
